annual index

Volume 18 ■ 2001

Articles

Design

"Design Reuse through Frameworks and Patterns," Peter W. Fach, no. 5, Sept./Oct., pp. 71–76.

"Virtual Windows: Linking User Tasks, Data Models, and Interface Design," Soren Lauesen and Morten Borup Harning, no. 4, July/Aug., pp. 67–75.

"Visualizing and Analyzing Software Infrastructures," Adam Buchsbaum, Yih-Farn Chen, Huale Huang, Eleftherios Koutsofios, John Mocenigo, Anne Rogers, Michael Jankowsky, and Spiros Mancoridis, no. 5, Sept./Oct., pp. 62–70.

"Web User Interface Design: Forgotten Lessons," Uttara Nerurkar, no. 6, Nov./Dec., pp. 69–71.

Extreme Programming

"Extreme Programming from a CMM Perspective," Mark C. Paulk, no. 6, Nov./Dec., pp. 19–26.

"Launching Extreme Programming at a Process-Intensive Company," James Grenning, no. 6, Nov./Dec., pp. 27–33.

"Recovery, Redemption, and Extreme Programming," Peter Schuh, no. 6, Nov./Dec., pp. 34–41.

"Reports from the Field: Using Extreme Programming and Other Experiences" (Guest Editor's Introduction), Wolfgang Strigel, no. 6, Nov./Dec., pp. 17–18.

"Using Extreme Programming in a Maintenance Environment," Charles Poole and Jan Willem Huisman, no. 6, Nov./Dec., pp. 42–50.

Fault Tolerance

"Achieving Fault-Tolerant Software with Rejuvenation and Reconfiguration," William Yurcik and David Doss, no. 4, July/Aug., pp. 48–52.

"Exploring the Role of Diagnosis in Software Failure," Les Hatton, no. 4, July/Aug., pp. 34–39.

"Mastering Agreement Problems in Distributed Systems," Michel Raynal and Mukesh Singhal, no. 4, July/Aug., pp. 40–47.

"Real-World Design Diversity: A Case Study on Cost," Karama Kanoun, no. 4, July/Aug., pp. 29–33.

"Software Fault Tolerance: Making Software Behave" (Guest Editor's Introduction), Jeffrey Voas, no. 4, July/Aug., pp. 18–19.

"Using Simplicity to Control Complexity," Lui Sha, no. 4, July/Aug., pp. 20–28.

Global Software Development

"An Experience in Collaborative Software Engineering Education," Jesús Favela and Feniosky Peña-Mora, no. 2, Mar./Apr., pp. 47–53.

"Globalization by Chunking: A Quantitative Approach," Audris Mockus and David M. Weiss, no. 2, Mar./Apr., pp. 30–37.

"Global Software Development" (Guest Editors' Introduction), James D. Herbsleb and Deependra Moitra, no. 2, Mar./Apr., pp. 16–20.

"Leveraging Resources in Global Software Development," Robert D. Battin, Ron Crocker, Joe Kreidler, and K. Subramanian, no. 2, Mar./Apr., pp. 70–77.

"Outsourcing in India," Werner Kobitzsch, Dieter Rombach, and Raimund L. Feldmann, no. 2, Mar./Apr., pp. 78–86.

"Surviving Global Software Development," Christof Ebert and Philip De Neve, no. 2, Mar./Apr., pp. 62–69.

"Synching or Sinking: Global Software Outsourcing Relationships," Richard Heeks, S. Krishna, Brian Nicholson, and Sundeep Sahay, no. 2, Mar./Apr., pp. 54–60.

"Tactical Approaches for Alleviating Distance in Global Software Development," Erran Carmel and Ritu Agarwal, no. 2, Mar./Apr., pp. 22–29.

"Using Components for Rapid Distributed Software Development," Alexander Repenning, Andri Ioannidou, Michele Payton, Wenming Ye, and Jeremy Roschelle, no. 2, Mar./Apr., pp. 38–45.

Metrics

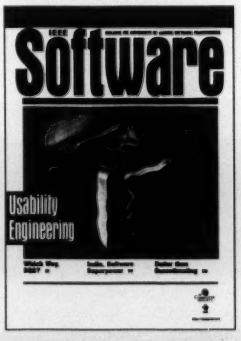
"Implementing a Software Metrics Program at Nokia," Tapani Kilpi, no. 6, Nov./Dec., pp. 72–77.

"Improving Subjective Estimates Using Paired Comparisons," Eduardo Miranda, no. 1, Jan./Feb., pp. 87–91.

Open Source

"Does Open Source Improve System Security?" Brian Witten, Carl Landwehr, and Michael Caloyannides, no. 5, Sept./Oct., pp. 57–61.

"Open Source Software Adoption: A Status Report," Huaiqing Wang and Chen Wang, no. 2, Mar./Apr., pp. 90–95.



Organizational Benchmarking

"The Benchmarking Process: One Team's Experience," Sam Fogle, Carol Loulis, and Bill Neuendorf, no. 5, Sept./Oct., pp. 40–47.

"Benchmarking Software Organizations" (Guest Editors' Introduction), David Card and David Zubrow, no. 5, Sept./Oct., pp. 16–17.

"Collecting Data for Comparability: Benchmarking Software Development Productivity," Katrina D. Maxwell, no. 5, Sept./Oct., pp. 22–25.

"Organizational Benchmarking Using the ISBSG Data Repository," Chris Lokan, Terry Wright, Peter R. Hill, and Michael Stringer, no. 5, Sept./Oct., pp. 26–32.

"Using Structured Benchmarking to Fast-Track CMM Process Improvement," Gareth C. Thomas and Howard R. Smith, no. 5, Sept./Oct., pp. 48–52.

"What I Did Last Summer: A Software Development Benchmarking Case Study," James T. Heires, no. 5, Sept./Oct., pp. 33–39.

Organizational Change

"Developing Groupware for Requirements Negotiation: Lessons Learned," Barry Boehm, Paul Grünbacher, and Robert O. Briggs, no. 3, May/June, pp. 46–55.

"Managing Process Diversity While Improving Your Practices," Michael Deck, no. 3, May/June, pp. 21–27.

"Mentoring Object-Oriented Projects," Ramkumar Ramaswamy, no. 3, May/June, pp. 36–40.

"Organizational Change" (Guest Editor's Introduction), Ann Miller, no. 3, May/June, pp. 18–20.

"SPI Patterns: Learning from Experience," Marina Blanco, Pedro Gutiérrez, and Giuseppe Satriani, no. 3, May/June, pp. 28–35.

"What Makes Measuring Software So Hard?" Stan Rifkin, no. 3, May/June, pp. 41–45.

Process Improvement

"Defining Team Processes Using OO Metaphors," Csaba Egyhazy, Scott Eyestone, and Janet Martino, no. 3, May/June, pp. 74–83.

"Heuristics for Iterative Software Development," Drasko Sotirovski, no. 3, May/June, pp. 66–73.

"Survival Patterns in Fast-Moving Software Organizations," Lena Holmberg and Lars Mathiassen, no. 6, Nov./Dec., pp. 51–55.

Programming Languages

"Cracking the 500-Language Problem," Ralf Lämmel and Chris Verhoef, no. 6, Nov./Dec., pp. 78–88.

Quality/Testing

"Accelerating Learning from Experience: Avoiding Defects Faster," Lutz Prechelt, no. 6, Nov./Dec., pp. 56–61.

"Reliable Objects: Lightweight Testing for

0740-7459/01/$10.00 © 2001 IEEE

OO Languages," Jean-Marc Jézéquel, Daniel Deveaux, and Yves Le Traon, no. 4, July/Aug., pp. 76–83.
"Software's Invisible Users," James A. Whittaker, no. 3, May/June, pp. 84–88.
"Using Card Sorts to Elicit Web Page Quality Attributes," Linda Upchurch, Gordon Rugg, and Barbara Kitchenham, no. 4, July/Aug., pp. 84–89.
"Using Group Support Systems for Software Inspections," Michiel van Genuchten, Cor van Dijk, Henk Scholten, and Doug Vogel, no. 3, May/June, pp. 60–65.
"Validating and Improving Test-Case Effectiveness," Yuri Chernak, no. 1, Jan./Feb., pp. 81–86.

Requirements/Specifications

"Applying Formal Specifications to Real-World Software Development," Girish Keshav Palshikar, no. 6, Nov./Dec., pp. 89–97.
"Exploring Alternatives during Requirements Analysis," John Mylopoulos, Lawrence Chung, Huaiqing Wang, Stephen Liao, and Eric Yu, no. 1, Jan./Feb., pp. 92–96.
"Requirements Engineering as a Success Factor in Software Projects," Hubert F. Hofmann and Franz Lehner, no. 4, July/Aug., pp. 58–66.

Roundtable

"Fault Tolerance," Jeffrey Voas, no. 4, July/Aug., pp. 54–57.

Usability Engineering

"Designing User-Centered Web Applications in Web Time," Molly Hammar Cloyd, no. 1, Jan./Feb., pp. 62–69.
"Engineering Joy," Marc Hassenzahl, Andreas Beu, and Michael Burmester, no. 1, Jan./Feb., pp. 70–76.
"A Global Perspective on Web Site Usability," Shirley A. Becker and Florence E. Mottay, no. 1, Jan./Feb., pp. 54–61.
"Integrating Usability Techniques into Software Development," Jean Anderson, Francie Fleek, Kathi Garrity, and Fred Drake, no. 1, Jan./Feb., pp. 46–53.
"Introducing Usability" (Guest Editors' Introduction), Natalia Juristo, Helmut Windl, and Larry Constantine, no. 1, Jan./Feb., pp. 20–21.
"Partnering Usability with Development: How Three Organizations Succeeded," Karla Radle and Sarah Young, no. 1, Jan./Feb., pp. 38–45.
"Usability and the Bottom Line," George M. Donahue, no. 1, Jan./Feb., pp. 31–37.
"Usability Basics for Software Developers," Xavier Ferré, Natalia Juristo, Helmut Windl, and Larry Constantine, no. 1, Jan./Feb., pp. 22–29.

Departments

Bookshelf

CORBA 3 Fundamentals and Programming, Second Edition, reviewed by Hernan A. Wilkinson, no. 3, May/June, pp. 105–106.
Distributed Applications with Microsoft Visual C++ 6.0, reviewed by Jerry Ferrell, no. 4, July/Aug., pp. 108–109.
Enterprise Modeling with UML: Designing Successful Software through Business Analysis, reviewed by Peter Houlihan, no. 1, Jan./Feb., pp. 106–107.
Fundamentals of Data Warehouses, reviewed by Fernando Berzal and Nicolás Marín, no. 5, Sept./Oct., pp. 92–93.
The Limits of Software: People, Projects, and Perspectives, reviewed by Robert C. Larrabee, no. 2, Mar./Apr., p. 102.
Program Development in Java: Abstraction, Specification, and Object-Oriented Design, reviewed by Pedro Sánchez Palma, no. 4, July/Aug., p. 109.
The Rational Unified Process: An Introduction, reviewed by Ted Graham, no. 5, Sept./Oct., pp. 93–94.
Software Product-Line Engineering: A Family-Based Software Development Process, reviewed by Christof Ebert, no. 1, Jan./Feb., pp. 105–106.
Successful Cobol Upgrades: Highlights and Programming Techniques, reviewed by Andrey A. Terekhov, no. 5, Sept./Oct., pp. 94–95.
Testing Computer Software, Second Edition, reviewed by Diomidis Spinellis, no. 3, May/June, pp. 104–105.

Country Report

"China's Budding Software Industry," Dehua Ju, no. 3, May/June, pp. 92–95.
"Germany: Combining Software and Application Competencies," Manfred Broy, Susanne Hartkopf, Kirstin Kohler, and Dieter Rombach, no. 4, July/Aug., pp. 93–95, 100.
"India's Software Industry," Deependra Moitra, no. 1, Jan./Feb., pp. 77–80.
"Ireland: A Software Success Story," Robert Cochran, no. 2, Mar./Apr., pp. 87–89.
"Japan: A Huge IT Consumption Market," Tomoo Matsubara, no. 5, Sept./Oct., pp. 77–80.
"The Russian Software Industry," Andrey A. Terekhov, no. 6, Nov./Dec., pp. 98–101.

Design

"Aim, Fire," Kent Beck, no. 5, Sept./Oct., pp. 87–89.

"Avoiding Repetition," Martin Fowler, no. 1, Jan./Feb., pp. 97–99.
"Protected Variation: The Importance of Being Closed," Craig Larman, no. 3., May/June, pp. 89–91.
"Reducing Coupling," Martin Fowler, no. 4, July/Aug., pp. 102–104.
"Separating User Interface Code," Martin Fowler, no. 2, Mar./Apr., pp. 96–97.
"To Be Explicit," Martin Fowler, no. 6, Nov./Dec., pp. 10–15.

Focus

"NSDIR: A Legacy beyond Failure," Greg Goth, no. 5, Sept./Oct., pp. 53–56.

From the Editor

"Art, Science, and Engineering," Steve McConnell, no. 2, Mar./Apr., pp. 9–11.
"Common Sense," Steve McConnell, no. 4, July/Aug., pp. 5–7.
"The Nine Deadly Sins of Project Planning," Steve McConnell, no. 5, Sept./Oct., pp. 5–7.
"An Ounce of Prevention," Steve McConnell, no. 3, May/June, pp. 5–7.
"Who Needs Software Engineering?" (a roundtable), Steve McConnell, no. 1, Jan./Feb., pp. 5–8.
"Raising Your Software Consciousness," Steve McConnell, no. 6, Nov./Dec., pp. 7–9.

From Your Technical Council

"Focus on Software Reliability Engineering," Melody M. Moore, no. 3, May/June, p. 98.
"Software Reuse: Silver Bullet?" Melody M. Moore, no. 5, Sept./Oct., p. 86.
"TCSE: Incubator of Software Engineering Programs," Melody M. Moore, no. 1, Jan./Feb., p. 104.

Interview

"Developers Need Some Slack" (interview with Tom DeMarco), Ware Myers, no. 4, July/Aug., pp. 90–92.
"Two Interviews, Two Perspectives" (interviews with Eric Schmidt and Mary E. Boone), Ann Miller, no. 3, May/June, pp. 56–59.

In the News

"Asia Pacific Region Poised to Follow India in Software Development Revolution," Paula Powers and Scott Lorenz Andresen, no. 2, Mar./Apr., p. 109.
"Awards & Recognition," Scott Lorenz Andresen, no. 2, Mar./Apr., pp. 107–108.
"Danger! Danger! Console Game Developers Ready Themselves for the Next Generation," Greg Goth, no. 4, July/Aug., pp. 96–99.
"DMCA 'Fixes' Delayed," Greg Goth, no. 6, Nov./Dec., pp. 104–105.
"Information Espionage Leads to Info-War," Ron Bast, no. 5, Sept./Oct., p. 85.
"The International Software Connection," Kalpana Mohan, no. 1, Jan./Feb., pp. 100–103.
"International Treaty on Cybercrime Moves toward Ratification," Angela Davids, no. 5, Sept./Oct., p. 84.
"Military PDAs: All Handhelds on Deck!" Greg Goth, no. 5, Sept./Oct., pp. 81–84.
"New Center Will Help Software Develop-

ment 'Grow Up,'" Greg Goth, no. 3, May/June, pp. 99–102.
"New Tool to Fight Terrorism, Crime, and Natural Disasters," Jenny Ferrero, no. 5, Sept./Oct., pp. 84–85.
"Next-Generation Entertainment Consoles: Not All Fun and Games," Gil Alexander Shif, no. 2, Mar./Apr., pp. 108–109.
"The Open Market Woos Open Source," Greg Goth, no. 2, Mar./Apr., pp. 104–107.
"Peer-to-Peer Computing Transforms File-Sharing and Large-Scale Distributed Computing," Crystal R. Chweh, no. 1, Jan./Feb., p. 103.
"Playing the Phone Game," Ron Bast, no. 3, May/June, p. 104.
"Privacy, Security Concerns Take On New Meaning," Greg Goth, no. 6, Nov./Dec., pp. 102–104.
"Self-Healing Computers More than a Band-Aid," Nikki Moustaki, no. 4, July/Aug., p. 99.
"UCITA Back on the Front Burner," Ron Bast, no. 3, May/June, pp. 102–103.

Loyal Opposition

"Extreme Programming: The Good, the Bad, and the Bottom Line," Robert L. Glass, no. 6, Nov./Dec., pp. 112, 111.
"Frequently Forgotten Fundamental Facts about Software Engineering," Robert L. Glass, no. 3, May/June, pp. 112, 110–111.
"Reflecting on Research and Practice," Hugh Robinson, no. 1, Jan./Feb., pp. 112, 110–111.
"So You Wanna Be a Cowboy," Bill Curtis, no. 2, Mar./Apr., pp. 112, 110–111.
"A Story about the Creativity Involved in Software Work," Robert L. Glass, no. 5, Sept./Oct., pp. 96–cover 3.
"Why Software Process Innovations Are Not Adopted," Stan Rifkin, no. 4, July/Aug., pp. 112, 110–111.

Manager

"Crouching Dragon, Hidden Software: Software in DoD Weapon Systems," Jack Ferguson, no. 4, July/Aug., pp. 105–107.
"Engineers Will Tolerate a Lot of Abuse," Watts S. Humphrey, no. 5, Sept./Oct., pp. 13–15.
"Knowledge Management: Insights from the Trenches," Linda Larson Kemp, Kenneth E. Nidiffer, Louis C. Rose, Robert Small, and Michael Stankosky, no. 6, Nov./Dec., pp. 66–68.
"Software Engineering and the Law," John Cosgrove, no. 3, May/June, pp. 14–16.
"Software Management's Seven Deadly Sins," Donald J. Reifer, no. 2, Mar./Apr., pp. 12–15.
"Which Way, SQA?" Emanuel R. Baker, no. 1, Jan./Feb., pp. 16–18.

Point/Counterpoint

"Software Benchmarking: Serious Management Tool or a Joke?" Charles Symons, no. 5, Sept./Oct., pp. 18, 20.
"When It Comes to Measuring Software, Every Project is Unique," John McGarry, no. 5, Sept./Oct., pp. 19, 21.

Quality Time

"Composing Software Component 'ilities,'" Jeffrey Voas, no. 4, July/Aug., pp. 16–17.
"Faster, Better, and Cheaper," Jeffrey Voas, no. 3, May/June, pp. 96–97.
"Improving the Quality of Object-Oriented Programs," Roger T. Alexander, no. 5, Sept./Oct., pp. 90–91.
"A Modest Proposal for Software Testing," Keith W. Miller, no. 2, Mar./Apr., pp. 98–100.
"Software Architecture Correctness," K. Suzanne Barber and Jim Holt, no. 6, Nov./Dec., pp. 64–65.

Requirements

"Are We Afraid of the Dark?" Suzanne Robertson, no. 4, July/Aug., pp. 12–15.
"The Top Risks of Requirements Engineering," Brian Lawrence, Karl Wiegers, and Christof Ebert, no. 6, Nov./Dec., pp. 62–63.
"Where Do Requirements Come From?" Neil Maiden and Alexis Gizikis, no. 5, Sept./Oct., pp. 10–12.

Authors

Agarwal, Ritu, see Carmel, Erran.
Alexander, Roger T., "Improving the Quality of Object-Oriented Programs," no. 5, Sept./Oct., pp. 90–91.
Anderson, Jean, Francie Fleek, Kathi Garrity, and Fred Drake, "Integrating Usability Techniques into Software Development," no. 1, Jan./Feb., pp. 46–53.
Andresen, Scott L., "Awards & Recognition," no. 2, Mar./Apr., pp. 107–108.
